

Year 1 Home learning Wednesday 1st July 2020

The hedgehog is out in the garden eating beetles and worms. How many feet did he eat?

(We'll cheat and count the beetles pincers as feet)

Complete the table or draw the pictures in your book.

=10 feet

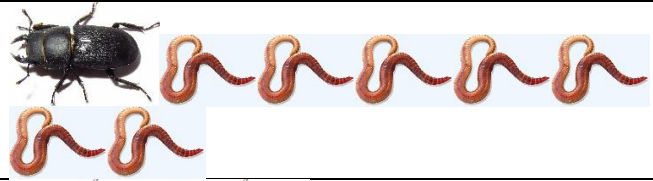

=1 foot

	61
	101

Extra challenge- think of a 2 digit number or even a 3 digit number and draw this amount in your book using beetles and worms.

Hint- This is a millipede with 100 legs.
