

This week we will learn all about adding and taking away again

Choose the level of challenge which fits your child . The one chilli challenges are the easiest the three chilli challenges are the hardest. Ask them to write their answers and their jottings in their book. Once your child has completed the activity, encourage them to play on Mathletics.

Like Grace, can you use your imagination to tell a number story or draw a picture which fits with the sentences below?

$$15-3=$$

"There were 15 fairies playing in the woods and then 3 flew away. There were 12 left in the woods."

$$14-5=$$

$$11-9=$$

$$15-7=$$

$$19-4=$$

Like Grace, can you use your imagination to tell a number story or draw a picture which fits with the sentences below?

$$25-13=$$

"A spider catches 25 insects and then he ate 13 of them. He had 12 left."

$$15-14=$$

$$19-11=$$

$$17-15=$$

$$19-14=$$

Like Grace, can you use your imagination to tell a number story or draw a picture which fits with the sentences below?

$$35-23=$$

"A spider catches 35 insects and then he ate 23 of them. He had 12 left."

$$35-14=$$

$$29-11=$$

$$37-25=$$

$$29-14=$$
