

Dear Parents,

It's the summer holidays and whether it has been easy or difficult for your child to engage with the maths home learning since the lockdown, they need to have a break from the more formal learning.

Here are some suggestions about how you can support your child over the summer holidays with their maths understanding. We hope you and your child find it helpful and enjoyable.

We don't expect them to do a lot, because they also need a good rest, but little and often will keep their knowledge and understanding in line with the other children in their class.

You could also look back at the maths games that were emailed to you daily from 13<sup>th</sup> July.

Your Mathletics log-ins should continue to work in the school holidays too.

Thank you very much for your help

Mrs Poate

Maths Leader
