### Summer 1 2022

This half term I have been working with Year 2 on a games unit, with the children learning how to play small sided throwing and catching activities in a competitive situation. We started with practising ball skills, learning how to control the ball with their hands and most importantly how to throw accurately to a partner. The children progressed quickly to trying to keep the ball away from an opponent. It was great to see year 2 running on the school field and learning how to win and lose within the rules of the games.

***'My favourite was going up and down bouncing the ball.'* Flynn**

***'My best was throwing the ball to each other because we got over 300! I also liked when we passed to each other, 2on 2.'* Darcy**

***'When we did all the ball stuff, that was my favourite.'* Leo**

***'I liked bouncing the ball up and down.'* Faith**
