

Thursday 14<sup>th</sup> May    Year 1 home learning

We are continuing our learning based around the story The Magic Balloon.  
Watch Miss Simpson read it on Dojo if you haven't seen it yet.

### Literacy

Here are two pictures from The Magic Balloon. Today we would like you to compare the 2 scenes. Can you say and write what is the **same** and what is **different**?

### Reading/ phonics

This week we would like you to explore the site **ICT games**.

<https://www.ictgames.com/>

You can play these on desktop, tablet and some games on a phone.

Today try little bird spellings.

### Today's fun task.

Spaghetti fun. Put some spaghetti in some hot water until it is soft enough to bend but not too soggy. Now see if you can make the spaghetti into the shape of letters or numbers. For a challenge, can you make it into the shape of continents or countries!?

## Maths

Jack has bought lots of different fruit. Can you help him work out how much money he will need altogether?

For a challenge, see if you can draw out the coins Jack could use.

$$2p + 6p =$$

$$4p + 5p =$$

$$5p + 2p =$$

$$3p + 6p =$$

$$7p + 3p =$$

$$5p + 5p =$$

$$4p + 6p =$$

To make it easier, stick to 1ps and 2ps. For a harder challenge try higher numbers and use different coins. Think about tens and units. Or for an even greater challenge, use the smallest number of coins possible eg 52p could be 5 10s and 2 1ps. But a 50p and a 2p would be less coins.
