

Wednesday 3rd January

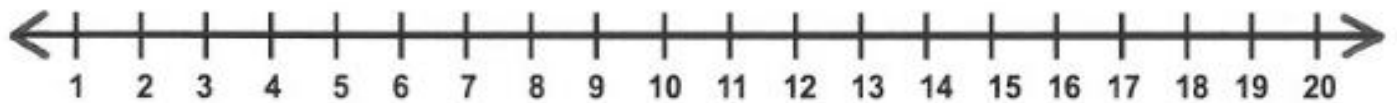

Addition using a number line

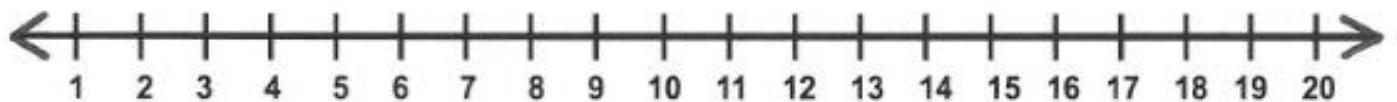

Use your finger to jump along the number line to work out the number sentences

Don't forget you start on the first number in the number sentence and jump **FORWARDS**.

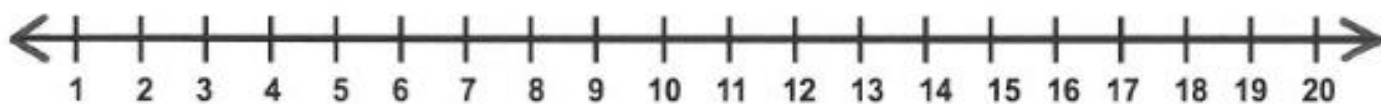

Eg: $3 + 2$

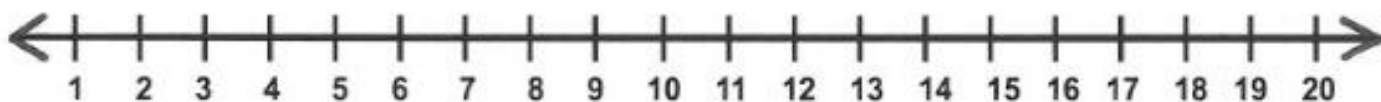

$$5 + 4 =$$

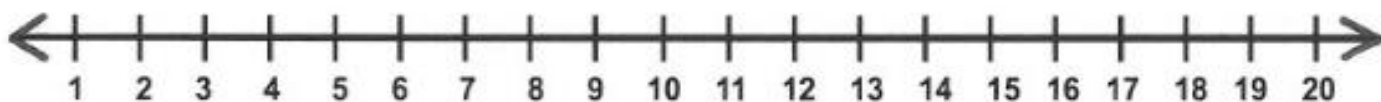

$$7 + 5 =$$

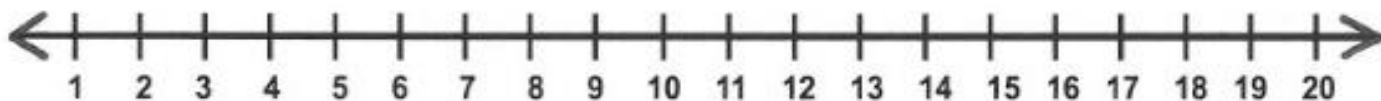

$$4 + 3 =$$

$$10 + 5 =$$

$$12 + 8 =$$

$$13 + 6 =$$

Challenge:

Can you make up your own number sentences and use a number line to work them out?
